OLD WORLD HEIRLOOMS

ZIMMERMAN CHAIR
FINE FURNITURE MAKERS
Welcome to the Old World Heirlooms by Zimmerman Chair. Blended with designs from European antiques and the needs for today’s market, these dining pieces will accent your home with style.

No shortcuts are taken in making the Old World Heirloom furniture. It begins in the forests of Northeastern United States. Mature trees are selected and harvested using responsible forestry practices. After the trees are processed into furniture grade lumber, skilled craftsmen at Zimmerman Chair begin the manufacturing process. This includes centuries-old techniques such as dovetails and mortise & tenon joinery. Combined with the technology of computerized design and robotic machining, these craftsmen give their personal touch to the production process. The finish process gives even more attention to detail as the finishers apply hand-rubbed stains and studio-style finishes.

The mark of true craftsmanship has always been the longevity of the product, so our focus continues to be on heirloom quality. We are pleased to offer furniture made in America, and we stand behind our product.

We offer these styles and finish options for your consideration, and invite you to add some timeless quality to your home with furniture by Zimmerman Chair.

Nail trim options on page 45. Nail trim required on inside backs for all vinyl and leather upholstery material.

### Furniture Options

**Seat Options**
Chairs with no letter appended have no seat options.
- **W**: Wood Seat
  The wooden "W" seat option on frame chairs is by far the most durable seat option.
- **U-1**: Fabric Seat
  The "U-1" fabric seat option gives many options of color and texture for your chair seats. You can also provide COM or COL.
- **U-2**: Standard Leather
  Standard Leather "U-2" is a medium grade leather. Premium Leather "U-3" is premium grade aniline imported from Europe.
- **U-3**: Premium Leather
- **F**: Fiber Seat
  The fiber "F" seat option is a handwoven paper twine.

**Nail Trim Options**
- Oxford
- Nickel
- Old Gold
- French Natural

**Table Edge Options**
Each table is designed with a standard edge, noted with each table’s specs. A nonstandard edge may be custom-ordered if table specs indicate availability.

**Chair Dimensions**

- Chair Height
- Seat Height
- Arm Height
- Seat Depth
- Chair Depth
- Chair Width

Chair dimensions are shown in this format:

- "H": overall chair height
- "W": overall chair width
- "D": overall chair depth
- "SH": chair seat height
- "SD": chair seat depth
- "AH": chair arm height
- "AW": width between arms

- Coal (Maple)

Finish Options

Heritage Paints

Heritage Finishes are distressed with worm holes and dings. The paint lacquer is applied, rubbed through or glazed to accent the piece. Only painted Cherry & Maple give the look presented on these paint chips. Oak wood allows the grain finish pattern to distinctly show through the paint finish. Colors shown should be used for guide purposes only. See dealer showroom for finish swatch board.

- #12 Marble
- #13 Moss
- #14 Redwood
- #15 Harbor
Finish Options

Antiquity Stains

The character and wear of generations of use is captured in the Antiquity Finishes. This is accomplished in a 16-step studio style finish process. Each piece is scraped, distressed, and softened with sanding to simulate years of wear. Glazing and hand burnishing highlight the character of the distress marks and the natural beauty of the wood. All the Antiquity finishes are coated with catalyzed finish and hand waxed.

Please note, there are 2 levels of distressing in the Antiquity Stains. Any Antiquity Stain finish can be selected in Level 1 or 2.

Antiquity Level 1: Praline, Teak, and Genoa have this as the default distress level unless specified otherwise. This is the overall lighter distress level and does not have simulated cracks. This level has worn edges, tear outs, gouges, dings, wormholes, and non-physical distressing within the finish layers.

Antiquity Level 2: Brie, Champagne, Chateau, Devonshire, and Bristol have this as the default distress level unless specified otherwise. This level has simulated cracks, worn edges, tear outs, gouges, dings, wormholes, and non-physical distressing within the finish layers. Colors shown should be used for guide purposes only.

Finish Options

Antiquity Paints

The distressed wood and color of Antiquity Paints is designed to complement the Antiquity Stains. Each piece is distressed in the same manner as the stained finishes but given several layers of color to highlight the natural wear from years of use. It is then coated with catalyzed finish and hand waxed. Only cherry and maple (not available on most SKU’s) will give the same effect as the samples. Oak wood allows the grain patterns to distinctly show the paint finish. Colors shown should be used for guide purposes only.

Weathered Antiquity

Weathered Antiquity represents years of elemental exposure. As the sun, the sea, and the sand form the character of a branch on the beach, so these finishes present the simulation of natural weathering on cherry wood. Each piece is unique and chosen to be “one of a kind.” Make your choice of color broad with the natural beauty of Weathered Antiquity variation.
Zimmerman Chair applies a quality catalyzed finish to all paint and/or stain wood finishes on all of the products. Each tabletop receives extra care and an extra coat of finish in the finish process to provide optimum durability throughout the years.

This finish has been tested to resist spills and stains from a wide variety of household chemicals, including water and household ammonia. These tests were performed with 24 hour contact and no affect on the finish. Hot liquids and objects should not contact the finish surface directly. Use place mats, pads, and coasters to protect the finish on the tabletops. Heat can quickly discolor the fine finish on your furniture.

**Important!!!** For the first 3 months of use, give extra care to protect your table from moisture and abrasion till the finish is fully cured. Do not use any furniture polish or furniture treatment on your tabletop for the initial 6 months of ownership.

You can clean your table anytime with a warm, soapy, damp cloth gently applied to the surface. After the catalyzed finish has reached its full potential of hardness at 6 months, the periodic use of high quality non-silicone and non-citrus furniture polish is recommended. Zimmerman Antiquity finishes are hand rubbed with a wax on top of the catalyzed finish. This finish can be cleaned with a damp, soapy cloth and then buffed with a soft, clean cloth to return it to full, clear sheen.

Solid wood is a natural fiber. Therefore it will shrink and swell with the seasons. Take care not to expose your heirloom furniture to the extremes in temperature and humidity. Season cracks may appear if humidity is not maintained at 30-40%. Do not expose directly to sunlight and heat sources. Tabletop joints between leaves will gap slightly in the center or edges depending on the humidity of the season.

Solid wood changes color over time under normal conditions of light exposure. Lighter finishes are the most vulnerable to this wood darkening, so move table decor around periodically so silhouettes do not appear on the tabletop. With proper care, your solid wood Heirloom will give you service and satisfaction for years to come.
